AMP **RESEARCH** **BedStep**™

Nationally Distributed by Bestop

FLIP DOWN. STEP UP. REPEAT.

Flip down when needed – flip up to stow. The AMP RESEARCH BEDSTEP™ gives easy access to your truck bed – tailgate open or closed. It's there when you need it, not when you don't.

AMP RESEARCH BedStep™

Nationally Distributed by **Bestop**

- No hands, foot operation
- Works with the tailgate open or closed
- 300 Lb. load capacity
- High-strength aluminum construction
- Durable powder coat finish
- 10-minute bolt-on installation
- Three-year limited warranty
- Made in USA

AMP designed the BedStep™ with a spring loaded cam to allow the step to easily deploy and retract with the simple push of your foot. When retracted, the AMP BedStep™ stores a rattle-free under the bumper.

Manually operated, the AMP BedStep™ “snap-locks” into position. The patented multi-link design allows the step to deploy at a convenient side angle, allowing easy access to the truck bed with the tailgate up or down.
